HILLPRIDE PERFORMANCE

Student-athletes develop from both a physical and personal standpoint. We strive to foster a culture of excellence both on and off the playing surface.

- Sports Science
- Athlete Performance
- Athletic Therapy
- Player Development

SOCIAL-EMOTIONAL LEARNING (SEL)

Social-Emotional Learning (SEL) comes in many forms at The Hill Academy.

Our student-athletes are constantly placed in situations where they are challenged and supported to develop and refine the core SEL skills:

- Self Awareness
- Self Management
- Social Awareness
- Relationship Skills
- Responsible Decision Making

In addition to the regular programming by our teachers and coaches that highlight these skills, we set aside time and space for our students to focus solely on SEL. By addressing these concepts directly and creating opportunities to practice them in different contexts, our students develop a greater level of confidence and maturity when dealing with adversity.
